## Annual Return on the Charter (ARC) 2021-2022

### Comments (Housing quality and maintenance)

Our overall SHQS performance has deteriorated during the year. In the main this has been due to the failure to complete our programme for electrical periodic inspections by 31st March 2022.

We have had severe access problems, combined with access for follow-up repairs (this is where we have completed the check and it has failed due to repairs being needed). In these cases for repairs, we have subsequently been unable to gain access to repair and then re-test the system. These cases are being treated as abeyances. We also found several properties where we have an older test recorded on our system however we cannot locate the physical copy of the inspection to provide to the tenant. We therefore have been progressing a new test. In these instances, we have treated them as fails.

In all cases above, we have an active programme for inspections during 2022-23 and all outstanding properties are being prioritised including forcing entry if required. We expect to have these all completed during 2022-23.

We have also taken the opportunity to revise our data on some of our exemptions under cavity wall insulation. We have a number of non-traditional steel-framed houses and these have been recorded as exemptions historically. This being on the basis that they do have a small cavity. However on re-visiting this area and the guidance, we are re-classifying these as N/A on that criteria, as you would not generally apply cavity insulation to these systems as it is not a traditional cavity construction.

On Indicator 7, we have taken the data from our last full scale tenant survey in 2019, hence the overall increase in volume.

Indicator 22 - Percentage of the court actions initiated which resulted in eviction	8.33%

## Annual Return on the Charter (ARC) 2021-2022

### Comments (Neighbourhood & community)

Indicator 22 - The court actions initiated rose from 3 in 2020-2021 to 12 in 2021-2022. The reason for the increase in 2020-2021 was mainly due to Coronavirus regulations and the recommendation that evictions could not take place in tiers 3 and 4 we did not pursue many arrears cases to court during 2020/2021. When we did begin serving Notices of Intention to Repossess the notice period was extended to 6 months until September 2021 therefore, we had to wait 6 months before pursuing these. Prior to covid we would on average initiate approx 25-30 court actions in one year.

## Annual Return on the Charter (ARC) 2021-2022

Comments (Getting good value from rents and service charges)

Indicator 28 - Average management fee per factored property has reduced. The Association has committed to keeping management fees at an affordable level over the past couple of years as the fee level appears higher than the average for the sector.

Indicator 18 - percentage of rent lost has improved substantially as a result of covid restrictions being eased, resulting in quicker turnaround of empty properties.

Indicator C5 - rent increase was higher than previous year due to inflationary pressures - however the Association still kept the increase to less than CPI.
