**Scottish Housing Quality Standard (SHQS) – Working towards the standard
(Indicator C27)**

Please state:

C27.1 How many properties did your organisation plan to bring fully up to the SHQS during the reporting year?

7

C27.2 How many properties did your organisation fully bring up to the SHQS during the reporting year?

4

C27.3 If C27.1 and C27.2 are not the same, please provide an explanation for the difference

2 tenants refused electric to gas upgrades. 1 tenant has continually refused to allow access to fit extractor fans.

C27.4 How many properties does your organisation plan to bring fully up to the SHQS during the next reporting year?

1

C27.5 The number of properties at C27.4 should equal the difference between the projected pass rates for the end of the reporting year and the end of the next reporting year (as reported at C25.5). If it does not, please explain the difference

We only plan to upgrade 1 of the 4 abeyances during 2019/20. The other 3 tenants have refused upgrades from electric to gas so we won't do any work unless the tenancy changes.

We also expect to complete 11 new build properties early in the year which will automatically meet SHQS and purchase 8 off the shelf purchases which will also meet SHQS.

Scottish Housing Quality Standard (SHQS) (Indicator C28.1)

(b) Work cannot physically be done at any cost, or doing the work would cause unacceptable problems in the building, (c) Work could be done but the costs would be disproportionate

C28.1.4 What action is your organisation taking or planning to take to address these exemptions

For the 27 kitchens we do not believe alternatives are possible.
for the 195 cavity wall properties we are progressing proposals for external wall insulation.

During 2018/19 we tried to upgrade heating at 3 properties and all 3 tenants refused. Unless the tenancy changes we cannot progress this. We also tried access on several occasions to fit extractor fans to 1 property - however the tenant has not allowed access. We will continue attempts in 2019/20.

Comments (Housing quality and maintenance)

Indicator 14 - the Association does operate a repairs appointment system in that customers can request morning or afternoon appointments. However the number of appointments made and kept are not monitored, therefore these have been entered as "0".

In terms of the 1 gas safety check that was not completed by the anniversary date:

14 Nov 18 - our contractor attended and found the flue to be at fault and requiring replacement - replacement parts ordered.

21 Nov 18 - contractor attended to fit parts but got no access. We had instructed if no access the meter should be capped the following day due to service expiring (21st Nov 18). It was an external meter.

22 Nov 18 - contractor attended, got no access, meter capped externally and made safe

28 Nov 18 - contractor attended to fit parts and carried out safety check as part of this work (CP4 equivalent). This covered all essential safety checks, the same as a service

20 Dec 18 - on checking records we found that the contractor had not supplied the Landlord Gas Safety record (CP12 equivalent) even though it was reported as complete. They had not serviced the boiler when the flue was replaced. Access arranged as an emergency and service was completed 20 Dec 18 and paperwork provided.

Although the gas service was not completed within the anniversary date, the appliance had received a gas safety check involving exactly the same checks as a service, but our contractor did not complete the service paperwork required. We have therefore reported this as a failure.

Our contractors internal processes have since been reviewed and changed as a result.
